To Asian Pacific Americans for Progress:

On behalf of the residents of the 15th Congressional District of California, I am pleased to extend my support to the State of Asian Pacific America House Party Conference Call 2010.

Founded in 2004, Asian Pacific Americans for Progress is a national network of Asian Americans and allies that encourages progressive grassroots and political action. The network is composed of everyday citizens from across the nation including students, filmmakers, scientists, educators, community organizers, lawyers, legislative staffers and campaign workers. Asian Pacific Americans for Progress organizes a wide variety of events and activities such as townhall meetings, discussion panels, film screenings, voter registration, census outreach, and activist training.

I would like to extend my gratitude to Asian Pacific Americans for Progress for their dedication to our community. I thank them for their work and offer my best wishes for the success of the House Party Conference Call.

With warm regards,

Michael M. Honda
